

Catch a cold? Swipe the card.

When you use your **take care**[®] Flex Benefits Visa[®] Debit Card (Card) to pay for qualified purchases, the money is instantly deducted from your flexible benefit account(s). You won't have to reach into your pocket to pay for qualified expenses, file a claim and then wait to get reimbursed.

And, you'll **save 25%–40%** on qualified purchases or services when you use your flex account dollars. That's because the money in your flex account is pre-tax dollars. Your savings are based on the percentage of tax you would have paid on those dollars had you not put them into a flex account.

Swipe, Save, and Go.

The Card is accepted at doctor offices and select merchants to pay for qualified flex plan expenses. Your spouse or dependents can also get a Card.

Using the pre-tax dollars in your flex account saves you 25%–40% on everyday items.

What you should know about the take care® Card.

■ Your take care® Flex Benefits Visa® Debit Card can only be used for qualified expenses and is only accepted at

qualified locations. Qualified locations include doctors offices, pharmacies, online drug stores, online stores for contacts, dentist offices, optical shops, hospitals, and day care facilities.

■ Make sure to save all receipts for items purchased with your Card. Occasionally you may be asked to provide documentation of charges made with your Card. Please save itemized merchant receipts as well as the take care Card receipts. This is an IRS requirement.

NOTE: Over-the-Counter (OTC) drugs and medicines must be accompanied by a physician's prescription. There are also requirements for purchasing OTC medicines—with the exception of insulin, the Card can only be used to pay for OTC medicines when they are prescribed. If you don't use the Card to pay, you can electronically submit a claim form along with the doctor's prescription and receipt for the OTC drug or medicine.
